The pure white of the flower.
The clear spirituality of the water.
The promising fragrance of the blossoms.

Purity. Clarity. Optimism.

This is what Nymphaea -
the flower of the water lily - promises.
It lives from the power of the sun.
In the borderland between earth,
water and air.

Magical beauty and
natural perfection.
The water lily radiates calm
and spreads a peaceful,
light-filled atmosphere.

mesoesthetic

**MEDICAL COSMETIC LINE
FROM BARCELONA**

EXCLUSIVE AND INDIVIDUAL.

The new skin treatment of the stars. MESOESTETIC stands for medical cosmetics and high-grade effectiveness.

The products are developed together with dermatologists, scientists and cosmeticians according to the latest findings in bio- and nanotechnology. An essential component of the method is an iontophoresis device that infiltrates the highly effective substances even into deep layers of the skin.

HARD TO BEAT FOR VERSATILITY.

Your skin benefits from a huge range of active ingredients. Various skin problems such as depigmentation, dryness or loss of elasticity are combated highly effectively. Anti-ageing treatments, lifts or tightening are just as recommended as skin cell renewal, drainage or slimming therapies. Our cosmetic experts analyse your skin type and adapt the treatment to your individual needs.

YOUR INDIVIDUAL TREATMENT.

After a skin analysis, we choose the active ingredients that are suitable for you. A cleansing peeling prepares the skin for the treatment. The selected active ingredients are infiltrated and worked into the skin with the help of the iontophoresis device. The effect is immediately visible, long-lasting and the skin's appearance improves significantly. For body treatments, we also use MESOESTETIC BodyShocks. Targeted heat and cold shocks remove deposits of fats and fluids in the tissue. The result is a beautiful silhouette and smooth, firm contours.
